

At GarCo, we pride ourselves in being a leader in both innovation and customer service.

GarCo Sales Division

works directly with specialty manufacturers of foil, film, textile and elastomer products. Therefore, we offer many more solutions at affordable prices.

GarCo Materials

Division focuses on unique solutions developed for specific customers and applications. We specialize in custom polymers, textile and rubber development, conversion and fabrication.

Headquarters

1400 S. Orlando Ave.

A Material Solutions Company

As a stand-alone company, we cannot economically produce all the solutions we create. Nor would it be smart to invest capital and create overhead cost when many experienced manufacturing companies are established. Ultimately, GarCo works to serve the customer's interest.

If your issue can be solved with a textile, film, foil or rubber component, GarCo can offer a solution.

Adhesives & Tapes

Water-based acrylic adhesive systems: transfer, D/C tissue, D/C polyester and scrim-reinforced products for foam and gasket fabricators, graphics and more
Territory: Account Specific

Tape and facing products for mechanical insulation and construction including FSK, ASJ, foils, duct tape, etc.
Territory: AL, FL, GA, MS, NC, SC, TN, VA and Canada

Masking tapes available in a variety of colors for industrial, automotive, construction and packaging industries.
Territory: United States & Canada

High performance natural rubber adhesive packaging tapes with UPVC, BOPP, MOPP and PET backings
Territory: North America

Elastomers

Self-locking, self-sealing silicone and EPDM inspection ports for non-destructive testing
Territory: AL, FL, GA, MS, TN

Material and application engineering talents are a primary strength of the GarCo team.
